

## **Important Information Regarding A Leadership Failure (8/22/23)**

The Leadership of Cornerstone Church is devastated to confirm allegations of moral failure in one of its senior staff members. On Friday, evidence was provided of sins committed by Executive Pastor Tivo McCrary against several teenage members of the congregation. Leadership took swift action to remove him from the building, and he was terminated upon the findings of our preliminary investigation. Law enforcement is now investigating and leadership is cooperating fully.

Leadership had absolutely no previous indications of inappropriate behavior. McCrary's background checks were clear and employment references completely favorable. We are now listening to our church family and reviewing our abuse prevention and screening processes. Our chief concern is to support the healing journey of those affected by McCrary's sinful behavior.

In Christ,  
Cornerstone Pastors and Elders
